

## PAY FOR YOUR PARKING FROM YOUR MOBILE

PrestoPark is a mobile application offering various e-services intended for users of paid parking on roads and in structures.

Motorists are guided with confidence to the available parking spaces and the parking tickets are fully dematerialized (virtual ticket).

### FUNCTIONS

Virtual payments : hourly tickets and subscriptions

Parking transaction history available to the user

Practical information on parking in the city

Consultation and guidance to available parking areas

Access to preferential rates (residents, professionals...)

Remote procedure of payment of timeout violation fines (France)

NO NEED FOR MONEY

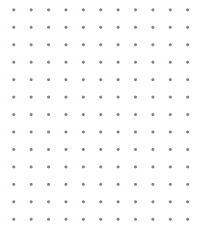

ALERT BEFORE THE END  
OF PARKING

STOP AT ANY TIME OR EXTEND  
REMOTELY

FAIR PAYMENT

01

VIEW THE AVAILABLE PLACES

View in real time on a map the parking spaces available in your city (available only in cities equipped with PrestoSense sensors).

02

LET YOURSELF BE GUIDED

Thanks to the GPS function of your smartphone, let yourself be guided to the available space.

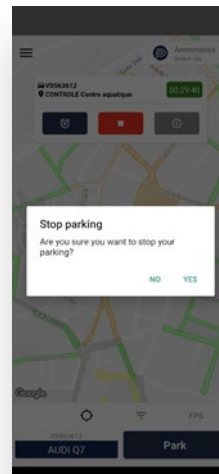

03

PARK & START YOUR PARKING LOT

No need to find and walk to the parking meter, you start parking directly from your smartphone - warm from your car.

04

STOP OR EXTEND REMOTELY

You can extend remotely or stop your parking at any time. You only pay the amount that corresponds to the time actually parked.
